DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1 – 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hatano et al. in view of Sasaki et al.
3. See prior Office Action for details.

Response to Arguments

4. Applicant's arguments filed 2/7/01 have been fully considered but they are not persuasive.
5. Applicant argues that the layer 47 of Hatano et al. which is described by Hatano et al. as being low in Al is only low in Al with respect to layers 47 and 48 but that is a claimed feature and note that if it has any Al, the band gap is greater than the active layer which has no Al.
6. Applicant states that layer 47 is not an insertion layer but while not called an insertion layer by Hatano et al., it has all the attributes of that layer, as claimed.
7. Applicant argues that Hatano et al. do not show various features, that are not claimed, but since they are not claimed, they are not considered.
8. Applicant states that Sasaki et al. does not teach an insertion layer but note that this is piecemeal analysis and Sasaki et al. is relied upon to teach the window layer.
9. Applicant states that Hatano et al. do not show an active layer with Al but claim 4, which is referenced only states the material is in the AlGaInP material system, in which the Hatano et al. active layer is.

10. Applicant states that the claimed carrier range has been ignored but, apparently, Applicant has ignored the rejection and is directed to paragraph 4 of the prior rejection.

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
